

Curriculum Council SubCommittee Descriptions

PURPOSE OF THE SUBCOMMITTEE COLLABORATIONS

The purpose of the CCCOE-District Subcommittee work is to develop county-wide collaboratives focusing on our mutual experiences implementing the California Standards. The county office will summarize state and federal updates on the standards in terms of implementation, legislation, and technology. Our district partners will share their implementation efforts and learnings. The goal is to support each other in our work by sharing information and experiences.

THE SUBCOMMITTEES

English Language Arts (ELA)/English Language Development (ELD) Subcommittee facilitated by Marsha Tokuyoshi and Charlotte Ford: This collaborative group will focus on improving ELA/ELD instruction with an emphasis on the California Standards in English Language Arts and Literacy and the California English Language Development Standards. We will continue to build on the key aspects of the California ELA/ELD Framework. District participants will have the opportunity to share their implementation progress.

Science Subcommittee facilitated by Hilary Dito and Christen Schwartz: This collaborative group will focus on improving science instruction for all students with an emphasis on the Next Generation Science Standards (NGSS). We will deepen our knowledge of the NGSS, understand the instructional shifts, and explore standards aligned curriculum.

Mathematics Subcommittee facilitated by Christen Schwartz and Hilary Dito: This collaborative group will focus on improving mathematics instruction with an emphasis on the California Standards in Mathematics. This will include examining standards aligned instruction, formative/district mathematics assessments, and the integration mathematical practices.

Assessment Subcommittee facilitated by Pam Tyson and Steve Bateman: This collaborative group will focus on improving assessment and instructional practices with an emphasis on California Assessments of Student Performance and Progress (CAASPP). The topics to be discussed include state legislation and board of education policy, CAASPP assessments' role in the federal Every Child Achieves Act, and transitioning to technology-based assessments.

Educational Technology Subcommittee facilitated by Steve Bateman, Adrienne DeWolfe, and Rovina Salinas: This collaborative group will focus on improving student learning with an emphasis on integration of digital resources in the California Standards, implementing Smarter Balanced Assessments, and innovation in instruction and learning. Districts will share best practices and roadblocks. The group will also keep abreast of new legislation and CA State Board of Education policy relating to technology.
